

Name: _____

Explain Your Brain Exhibit Stations

Real Brains!

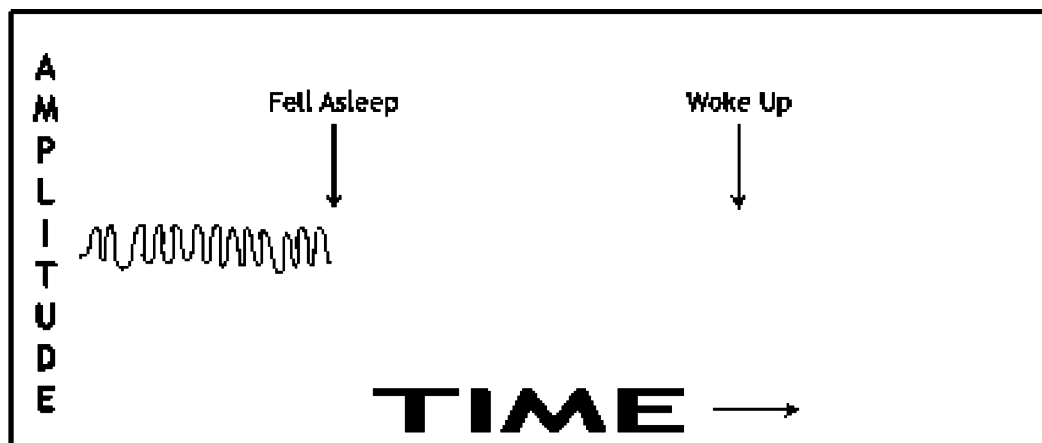

What was your first thought when you saw the real human brains?

What did you learn by looking at and hearing about the real brains?

What question or questions do you still have about brains and how they work?

EEG Station

In the box below, draw how you think your alpha wave would change if you fell asleep at the point marked "fell asleep" and then woke up at the point marked "woke up".

Name: _____
