

Name: _____

Mirror Images Activity - Student Guide

What is a procedural memory?

Where is this memory stored?

What are two procedural memories that you have?

After trying to draw shapes using the mirror:

What was the easiest design to trace?

Is this the same design as other students?

Was it easier to draw the designs after the first time?
Why do you think this is?

What would happen if you never practiced a skill you want to learn?
